

25 ml Oral solution

With dropper

DIN HM 80021809

GASTRO

GASTROENTERITIS RELATED SYMPTOMS:

NAUSEA, VOMITING, DIARRHEA

COMPOSITION :

Medicinal ingredients	Properties of each ingredient
Arsenicum album 6CH	Burning digestive pain, choleric syndrome. Nausea, vomiting, diarrhea. Food poisoning (spoiled food). Exhaustion and dehydration.
China rubra 6CH	Abdominal distension. Painless, exhausting diarrhea with gas. Hepato digestive disorders.
Ipeca 6CH	Lasting nausea of digestive origin. Dysenteric acute diarrhea, especially in childhood. Nausea and vomiting.
Phosphorus 6CH	Acute gastroenteritis or gastritis. Nausea and vomiting, stomach pain. Profuse and exhausting diarrhea.
Podophyllum peltatum 6CH	Enteritis and acute gastroenteritis. Watery, profuse and fetid diarrhea.
Veratrum album 6CH	Very violent vomiting. Profuse, sudden and urgent diarrhea; cramp and colic.

Non medicinal ingredients:

Purified water, sorbitol, glycerin, sodium benzoate, potassium sorbate, citric acid.

Indications :

KIDZ GASTRO oral solution is recommended for the treatment of gastroenteritis related symptoms: nausea, vomiting, diarrhea, abdominal cramps, colic, fatigue.

Dosage: To be taken orally.

Children 1 to 5 years old: 5 to 10 drops, 3 to 4 times per day.

Children 6 to 11 years old: 5 to 15 drops, 3 to 4 times per day.

At the start of the treatment, take every 30 minutes, up to 6 times per day, then return to general dosage. To be taken directly under the tongue with the dropper or to melt with some water before drinking.

Warnings:

If symptoms persist more than 8 hours or are accompanied by fever, consult a healthcare practitioner. Gastroenteritis can cause dehydration; make sure that child is well hydrated (water or rehydration solution).

Incompatibility with other medicine:

No known incompatibility with other medicines.
